# WORD ON WHITE HOUSE

A Publication of the City of White House

105 College Street • White House, Tennessee 37188

[WWW.WHITEHOUSE.TN.GOV](http://WWW.WHITEHOUSE.TN.GOV)

## The White House Wizards defeat the Police and Fire Department in a baseball battle!

The White House Wizards faced the White House Police and Fire Department in a baseball game this summer! The White House Wizards are a part of our Challenger Baseball program. The Challenger Baseball program is a free program for youth for disabilities hosted by the White House Parks Department. The league was made as a way for kids with disabilities to learn the foundations of baseball and to build community connections. It is also a chance for the players to be active while making friends and building their self-confidence.

This year, the team consisted of 10 players ranging from 4 to 18 years old. The wizards were led by coaches Darrell Suter, Christy Suter,

and Steven Russell and buddies Selena Clouse, Robert Clouse, Zac Dekker, Alex Malich, and Dominic Malich. This season, the Wizards faced the White House Police and Fire departments as well as teams from the White House Youth Baseball and Softball League.

We would like to thank the following sponsors for allowing this program to continue every year: Gerald Printing, Heads Farm, CEMC, White House Florist, WHYBS, Volunteer State Bank, White House Gold and Diamond, NP Clinic, Clif and Fran Hutson, Old Hickory Bat Company, Copper Creek Electric, The BBQ Place, and Hampton Inn!

# Greetings

FROM YOUR CITY ADMINISTRATOR  
**Gerald O. Herman**

July 1st was the start of our new budget year. The Board of Mayor and Alderman passed the annual budget at their June meeting. The budget was a culmination of six months of budget preparation and presentations. We have 15 funds, each of which has their own budget. Many of these funds are earmarked for specific purposes. We are projecting that these 15 funds will receive revenues of \$58 million and our outgoing expenditures to be \$45.6 million.

As the city has grown in population so has the need for additional personnel to staff the 10 departments. Additional full-time staff will increase by 6, giving us a total of 134 authorized employees. Additional part-time staff will increase by 4, giving us a total of 17 authorized part-time employees.

Approved in the budget was \$23 million for what we refer to as capital purchases over \$25,000. Here is a list of capital projects over \$25,000:

**Legislative/Administrative:**  
Web site improvements; Special Census; message board upgrade at the municipal complex; purchase tourism directional signage.

**Engineering:**  
Widening of a section of North-Palmers Chapel Road; Pedestrian Safety Improvements at and near US31W and Raymond Hirsch Intersection; widening Sage Road from US31W to Cardinal Drive; Improving intersection with traffic signalization at SR76 and Pleasant

Grove Road; designing improvements for Calista Road widening, US31W at Marlin Road intersection improvements, and improvements for Union Road and SR76 intersection.

**Police Department:**  
Purchase 2 patrol vehicles and 2 support services vehicles. Design concept for future police department facility expansion.

**Fire Department:**  
Purchase a Rescue Pump-er (fire truck) and turnout gear for each firefighter.

**Public Services:**  
Asphalt paving in their parking lot; continue with ADA transportation improvements; back up intersection detector system; replace front gate at their facility; purchase 2 new digital boards; half-million for street asphalt overlay; box culvert stormwater projects in Indian Ridge subdivision; land acquisition for stormwater improvements; purchase utility vehicle; stream monitoring study; stormwater fee study.

**Parks and Recreation:**  
Finish building recreation center; purchase an in-field groomer; finish soccer complex parking lot and pavilion; purchase furniture and fitness equipment for new recreation center; purchase utility vehicle; purchase equipment for gaming room in new recreation center; purchase a tri-max mower.

**Wastewater:**  
Finish with phase 4 and 5 of the southern force main collection line; Design and acquire land for a new Wilkinson Lane lift station; purchase 2 utility trucks; purchase a compact mini excavator; finish new treatment plant facilities; repair the bank of one of the ponds at the plant; asphalt re-paving of facility parking lot.

May you be safe, happy, and healthy during the summer months.

# Parks & Recreation

## Soccer Complex Renovation

After 4 years of waiting and planning the renovations are finally complete! In 2020 we received a Local Parks and Recreation Fund Grant from the state to make improvements to the soccer complex. In total there was about \$3 million spent on the project. The funds went toward expanding and paving the parking area, adding ADA pathways and a pavilion to the front of the facility. With over 500 parking spaces and the new covered pavilion, the updates will provide a more accessible facility for our local leagues, tournaments, and special events. We appreciate everyone's patience this past spring as crews have worked on the project, and we expect the project to be completed by the time this article is published!

## Volunteer Highlight

**Thank you to Regina Wheat for organizing the White House Garden Club!**

Here are a few words from Regina:

Hello my name is Regina Wheat! Before I lived in White House, I lived in Madison where my flower garden could be seen from West Ave as people drove by. I considered it my own little paradise! When I moved I brought 250 flowers with me to start my new backyard flower garden.

I missed talking to other gardeners, sharing seeds, and information, so I decided to start a garden club! I put a meeting time and place on Hip White House and surprisingly had twenty fellow gardeners show up! It has grown from there.

We meet the second Tuesday of each month. Our meetings include snacks, plant swaps, socializing, door prizes and guest speakers. Sometimes the group meets at another site to tour local gardens and nurseries. You can find more information on our Facebook at *The White House Garden Club*.

# The Planners Corner

**Ceagus Clark**  
*Planning and Codes Director*

In the 'Planners Corner' series, we will explore how the Code Enforcement Staff keep White House beautiful, focusing on city signage and property maintenance.

The concept of Growth Management was introduced in the 70's, with states beginning to adopt a more systematic approach to growth. Systems were enacted to mitigate transportation and environmental issues, all while balancing economic development. The City of White House began to implement policies in the early 80's to accommodate growth. The 2020 census count was 12,800 people within the city limits of White House. An estimate on July 1, 2023 showed a 17.9% increase with a population now of 15,340. Of the 5,041 households, 76% of the city's housing stock is owner-occupied. The value of owner-occupied homes, according to the census, is \$287,000. The median income in White House is \$85,404. Middle Tennessee continues to attract the relocation of businesses, causing the need for additional housing in the market. Citizens in the 10-county region are all experiencing major development. The City of White House is not unique to this growth. With growth comes growing pains, including increased traffic. There are eight (8) commercial and industrial projects, and 27 residential projects currently under construction. This includes townhouse and

apartment developments that are approved. If you would like to keep track of the progress of this construction, we have an online dashboard- which is updated monthly. Visit the city website, navigate to Planning and Codes, and you will see a link on the left side of the page, labeled Development Tracker.

<https://www.whitehousetn.gov/departments/planning-and-codes/development-tracker>

From 1996-2007, there were 1,842 single and multifamily permits issued, as shown in the chart.

	Single Family	Multi Family
1996	205	10
1997	137	0
1998	151	4
1999	238	12
2000	115	2

 Total Units Approved: 234  
 Single Family Units: 234  
 Multi Family Units: 0  
 Remaining SF: 102  
 Remaining MF: 0  
 Completed Units: 132

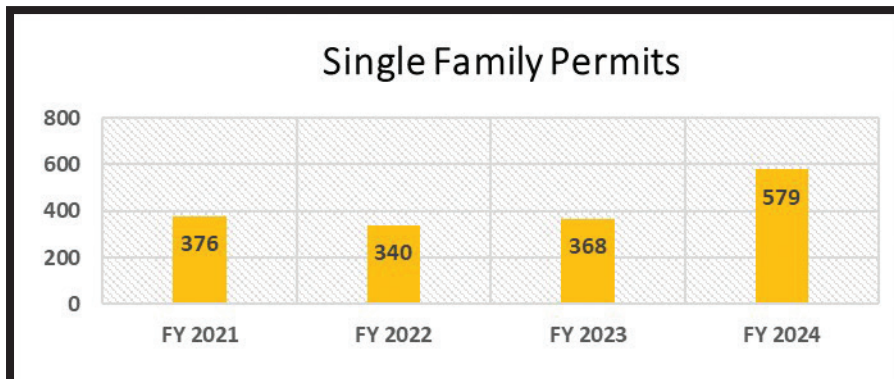

There was a decline in growth nationwide due to the economic downturn. There were only 439 single family home building permits issued from 2017-2020. We issued an average of 360 single family permits over the last four years, with a record high number 579 permits in fiscal year 2024.

Majority of the approved developments in the city were approved between 2015 and 2021. It is estimated that the majority of these developments should be complete by 2028. This is based on the rate at which each development is currently being built. There are several major traffic improvement projects that will commence in the upcoming year, all aimed at alleviating traffic congestion and safety concerns.

The city website will have a list of these projects and the projects status in the coming weeks.

Finally, the city's Land Use Development Regulations will be completed by the end of Fiscal Year 2025. These will be key in facilitating growth for years to come. Be on the lookout for an invitation to contribute your input on zoning and land use.

If you have any questions or concerns, please feel do not hesitate to call our office. The full zoning ordinance can be found at <https://www.whitehousetn.gov/departments/planning-and-codes/zoning-ordinance>

You can reach us at 615-672-4350 ext. 2120.

# CITY OF WHITE HOUSE FIRE DEPARTMENT

## There's a Fire Truck Behind Me, Now What?

By Brandon Crimmons

In a scene that plays out every day in White House, and all across the country: You're driving along, and suddenly you notice a fire engine, ambulance, or police cruiser approaching from behind, lights and sirens wailing. What do you do? How do you react?

The job of an Apparatus Driver/Operator (Engineer) is to get the apparatus and crew to an emergency scene QUICKLY and SAFELY. Minutes and seconds do matter, but we can't just go barreling through town ignoring the speed limit and traffic laws, we must operate with due regard. If we get into an accident in the apparatus on the way to a call, we're now unable to help, and we've just created another emergency.

From the perspective in the cab of the fire engine, there's a LOT going on...

First of all, we need to know, quickly, where we are going, and navigate accordingly. This has to be done with a lot of distractions happening. The wailing siren and air horn, radio chatter, and a fire officer next to us giving instructions. All the while, we are going through a mental checklist in our head thinking about what we have to do once we're on scene, how to place the apparatus, hydrant locations, etc.

Traffic is the biggest variable. We are always looking way head of where we are going, watching and trying to anticipate what drivers will do. Our head is on a swivel, constantly scanning intersections, traffic lights, and even parking lots to make sure everyone sees us. We are trying to an-

ticipate things that might happen, so we will have time to react if necessary.

Most of the time, people react just fine. There are circumstances such as heavy traffic, tight roads, and simply being caught off guard that may cause drivers to react inappropriately. Add to that, drivers are often distracted by their phones, the

phone and no texting while driving! If you need to make a call or use GPS, use a hands-free device. Keep the radio at a reasonable volume and don't put both ear buds in. • If you encounter an emergency vehicle, do not panic. As mentioned earlier, we had our eye on you from way back, we will give you time to react. The common adage is "sirens and

radio, navigation, etc., and most modern cars are well insulated, virtually soundproof, so a driver may not even hear us until we're right up on them.

We want to keep everyone safe, and in doing so it keeps us safe so we can go handle the emergency. As mentioned earlier, we're of no help to anybody if we don't make it to the scene. So, here's a few quick tips about how to react when you encounter an emergency vehicle:

- Most importantly, minimize distractions!! Do your best to maintain some situational awareness. Put your phone down, don't talk on the

lights, pull to the right." If you see us coming, slow down and ease the vehicle to the right side of the road, as far as you're safely able to. Try not to slam on the brakes and jerk the car over, just pull over nice and easy. This rule applies whether we're approaching from behind you or meeting head on, pull to the right.

Now if we're on a tight, two-lane road, or there's heavy traffic, one or both ways, just do your best, get over as far as you can and we'll make it work. But keep something in mind, we cannot get our tires off the roadway since the fire engine is so heavy. If we get that fire truck too far off the road, it could

potentially turn over or become stuck.

If you're stopped for any reason, like in a turning lane, try your best to pull to the right or just stay stopped, we'll go around you. Intersections can be tricky as well, and most dangerous for us to clear. Whichever way you're coming through an intersection, just slow down and stop safely, and not in the middle of the intersection if you can help it. We're either going to stop or slow way down and clear the intersection before proceeding.

Finally, if you can help it, don't stop on a hill or a blind curve, it's a dangerous situation if we can't see what's coming. Go ahead and crest the hill or go all the way through the curve. Again, we will give you time.

We're trained for this, and we practice it often, but it takes you, as a responsible driver, to help us out and yield.

- One final thing to keep in mind... If we're working on the side of the interstate or a busy highway, please slow down or move over! We understand everyone is in a hurry and has somewhere to be, but please be patient and we will get everyone on their way as soon as safely possible. Sometimes we might have to shut the road down, but we will open it back up as soon as we can.

Keep these tips in mind next time you see us in your rear view. It only takes a few seconds for us to go past you, and then you're going back about your day.

# POLICE DEPARTMENT

## Safety While Traveling to School

As students prepare to return to school, The White House Police Department would like to offer students, parents and motorists several important safety tips.

### Walking to school:

Walk on the sidewalk, if one is available; when on a street with no sidewalk, walk facing the traffic. Before you cross the street, stop and look left, right and left again to see if cars are coming. Make eye contact with drivers before crossing and always cross streets at crosswalks or intersections. Stay alert and avoid distracted walking. Never walk while texting. If you need to respond to a text, move out of the way of others and stop on the sidewalk. Never cross the street while using an electronic device. Do not wear earbuds while walking across the street.

### Riding a bicycle to school:

Ride on the right side of the road, with traffic, and in single file. Come to a complete stop before crossing the street; walk bikes across the street. Stay alert and avoid distracted riding. Make sure your child always wears a properly fitted helmet and bright clothing.

### Riding the bus to school:

Go to the bus stop with your child to teach them the proper way to get on and off the bus. Teach your children to stand six feet (or 3 giant steps) away from the curb. If your child must cross the street in front of the bus, teach him or her

to walk on the side of the road until they are 10 feet ahead of the bus; your child and the bus driver should always be able to see each other.

### Driving your child to school:

Stay alert and avoid distracted driving. Obey school zone speed limits and follow your school's drop-off procedure. Make eye contact with children who are crossing the street.

### Safety Tips for Motorists:

It is important that motorists be alert while driving, especially in school zones and residential neighborhoods. Children can be unpredictable and may ignore hazards and take risks. The NSC provides the follow tips for motorists:

Don't block the crosswalk when stopped at a red light or waiting to

make a turn, forcing pedestrians to go around you; this could put them in the path of moving traffic. In a school zone when flashers are blinking, stop and yield to pedestrians crossing the crosswalk or intersection. Always stop for a school patrol officer or crossing guard holding up a stop sign. Take extra care to look out for children in school zones, near playgrounds and parks, and in all residential areas. Don't honk or rev your engine to scare a pedestrian, even if you have the right of way. Never pass a vehicle stopped for pedestrians. If you're driving behind a bus, allow a greater following distance than if you were driving behind a car. Never pass a bus from behind – or from either direction if you're on an undivided road – if it is stopped to load or unload children. It is illegal in all 50 states to pass a school

bus that is stopped to load or unload children. If the yellow or red lights are flashing and the stop arm is extended, traffic must stop. The area 10 feet around a school bus is the most dangerous for children; stop far enough back to allow them space to safely enter and exit the bus. When passing a bicyclist, proceed in the same direction slowly, and leave 3 feet between your car and the cyclist. The most common cause of collision is a driver turning left in front of a bicyclist. Watch for bike riders turning in front of you without looking or signaling; children especially have a tendency to do this. Watch for bikes coming from driveways or behind parked cars. Motorists are also reminded that the Tennessee Hands-Free Law requires drivers to stay off of all electronic devices while driving.

- 4th Thursday: Bingo 1:30PM & Creative Writing 4PM
- Last Thursday: Bookworms Book Club 10AM

## MEET OUR STAFF MEMBERS OF AUGUST AND SEPTEMBER!

Hello, my name is Audrey Frazee and I am the Teen Librarian at the White House Public Library! I specifically work with tweens and teens between the ages of 10-17! I run a plethora of clubs throughout the month including (but not limited to) the Coding Club, Craft Night, Songwriting Club, Teen Art Club, YA Book Club, and our Teen Advisory Group aka TAG. These club meet throughout the month on Mondays, Tuesdays, and the occasional Thursday, but you can learn more about them on our website or at the Teen Info Booth in the YA section of the library. Additionally, there are a ton of other things I do in the library on a day-to-day basis such as create fun displays for the YA section, make bookmarks for the different clubs I run, make a monthly magazine for tweens & teens that come here, and I select all the purchases for the YA section! In my personal time I enjoy drawing, writing, hanging out with my friends, reading the occasional good book (but it's gotta grip me from the first page or it's an immediate DNF), and going on little adventures with my partner. I truly do love and enjoy my job here at the library and if you're looking into it; I highly suggest trying out a career in library sciences! It simply is a pleasure.

I'm Tammy Peterson and I'm the Adult Services Librarian here at White House Public Library! I've worked here for five years and held my current position for the past 2.5 years. I plan, schedule and market the adult programs here, and I facilitate some of them as well. The adult programs we provide include Genealogy, Knitting and Crochet, Sewing, Bingo, a mystery book club, an all-genre book club, a writing club and Device Advice. We also provide quarterly workshops of different topics for adults. The programs I teach include Mystery Readers Book Club, Adult Sewing, Bingo, and I also help instruct the Teen Sewing class. You can also find me at the circulation desk assisting patrons with everything from checking out items to computer and printer questions.

My favorite things to do in my personal life include spending time with my husband and kids, keeping freshwater aquariums, sewing, quilting, crocheting, reading and spending time with my coonhound, Lucy.
